

# BLUEBERRY FILLINGS

## A journey across the **blueberry** sensorial space

Did you know that there are multiple varieties of blueberry, each one of them having unique flavours and properties? Each variety has its own influences on the taste of our fruit fillings. There is more to the blueberry story than at first appears.

### 3 VARIETIES

Discover the three unique varieties of blueberry:

#### CANADIAN WILD BLUEBERRY

*Vaccinium angustifolium* grows in North-eastern America

#### CULTIVATED BLUEBERRY

*Vaccinium corymbosum*, originally from Chile, but can be grown across all continents

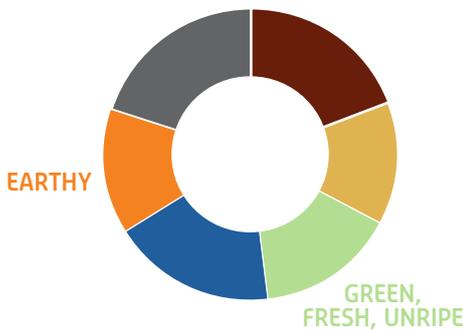

#### EUROPEAN WILD BLUEBERRY

*Vaccinium myrtillus*, mainly present in Europe, but can also be found in Asia.

### FLAVOUR

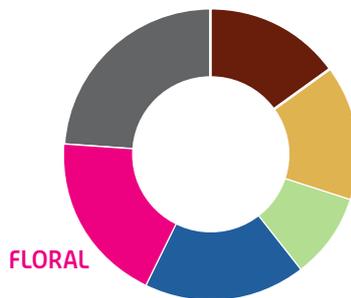

The flavour wheels show the flavour profiles of the fresh, unprocessed berries, that can easily be recognised in our different Topfils.

#### CANADIAN WILD BLUEBERRY

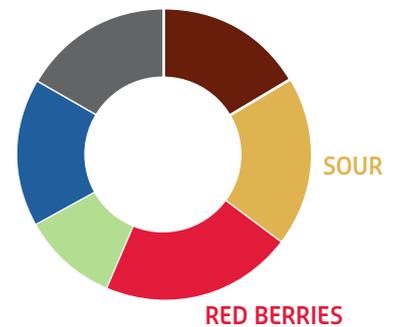

A green, earthy and fruity wild berry flavour, meaning it has a hint of fresh unripe notes. Compared to the other varieties, this variety is the sweetest.

#### CULTIVATED BLUEBERRY

A floral and fruity cultivated berry with a balanced sweetness.

#### EUROPEAN WILD BLUEBERRY

A juicy, mildly sour and fruity wild berry with red berry notes, such as strawberry.

■ sweet   
 ■ sour   
 ■ red berries   
 ■ green, fresh, unripe   
 ■ blue fruit   
 ■ earthy   
 ■ floral   
 ■ blackcurrant

## CONSUMER VALIDATION
